## LEAD RTO

Thank you for choosing to study with LEAD. We wish to provide you with a flexible approach to your learning experience that will accommodate your strengths and develop your skills. The Trainers at LEAD have extensive experience in their chosen areas of industry. They will assist you in developing individual approaches to your training plans to encourage ongoing development.

Seeing you through to successful completion will require your co-operation and commitment. Keeping in contact with your Trainer and advising them of your progress is very important to your ongoing success. The Team at LEAD RTO welcomes you and wishes you all the best in your time with us. This Student Handbook will assist you in settling into LEAD RTO. After you have finished reading this handbook if you have any questions please discuss this with your Trainer.

## UNIQUE STUDENT IDENTIFIER (USI)

Since 1 January 2015, all students completing Nationally Recognised Training are required to have a Unique Student Identifier (USI). This includes students doing Vocational Education Training (VET) in schools.

A USI is a reference code made up of letters and/or numbers. Creating a USI is free. It creates a secure online record of your Nationally Recognised Training that you can access anytime and anywhere, and it's yours for life. Therefore you should keep your USI number in a safe place.

The USI is linked to the National Vocational Education and Training (VET) Data Collection, and this means an individual's Nationally Recognised Training and qualifications gained anywhere in Australia, from different training organisations, will be recorded.

The USI:

- Links a student's VET achievements, regardless of where in Australia they did the training
- Let's students easily access secure digital transcripts of their achievements
- Gives students more control over their VET information.

Students are requested to create their USI prior to starting their course with LEAD. Information on the USI can be found at: <http://www.usi.gov.au>

## ENROLMENT

At Student enrolment you will meet your Trainer and be asked to do the following:

- Fill out the Student Enrolment Form
- Register your USI number
- Present two (2) forms of identification, one form must be photographic identification
- Complete an Initial Skills Assessment
- Select your units
- Complete a Training Plan (if required)
- Discuss the mode of delivery (for example on-line or hard copy)
- Discuss a time line with your trainer for completion of the qualification

Your trainer will then provide you with a Training Calendar within 2 weeks of enrolment outlining unit completion dates to meet this time line and a schedule of visits by the trainer or a schedule of class room dates dependent on training delivery mode.

## TRAINING DELIVERY MODE

LEAD may use one (1) or a combination of the training delivery modes listed below to assist you to achieve competence in your units.

- **Classroom Based** - this is training that takes place away from a student's work place either off the premises or in a separate training area in the work place and usually involves face-to-face training
- **Electronic Based** - uses electronic media to deliver training/courseware
- **Employment Based** - this is training conducted in the work place utilising the skills and duties you use in your daily work routine. The training can be delivered by your LEAD Trainer or your workplace supervisor.

- **Other** - may include distance learning or self-paced study, project work, e-learning approaches, alternate assessments etc. to demonstrate competence against the unit elements.

## ASSESSMENT

To complete a unit, competence against the elements in that unit needs to be demonstrated. To be competent means you have demonstrated your skill or knowledge currently and over time. There are many ways to demonstrate competency and LEAD Trainers are very happy to work with your strengths and nurture your development to assist you in achieving competence.

### Assessment differences with qualification levels

When you are demonstrating your competence, you are required to demonstrate it to the level of qualification you are studying. This is more easily done if you understand what is expected of you. Listed below is a brief description of the detail that is expected at each level of qualification:

- A **Certificate II** requires you to be able to perform the task
- A **Certificate III** requires you to be able to perform the task and understand why you are performing the task
- A **Certificate IV** requires you to be able to perform the task, understand why you are performing the task and be able to explain it to an independent party
- A **Diploma** requires you to be able to perform the task, understand why you are performing the task, be able to explain it to an independent party and then prove yourself through researching your findings

### The Principle of Competency Based Training

The aim of Competency Based Training is to assess the student's ability to undertake the activities in each unit rather than sit an exam that has a specific "pass mark". Your Trainer will assess your ability (or competence) to carry out the activities in each unit of your course. Competencies include the skills and tasks that are required for you to participate in workplace activities. When you are being assessed on these activities, you will be required to perform them to the level required of the qualification you are studying. Evidence of tasks being completed in the work place will need to be produced; you can organise this with your Trainer.

### Knowledge Assessments

Knowledge Assessments can be written or verbal. Knowledge Assessments in Vocational Training are only marked as Competent (C) or Not Yet Competent (NYC). Knowledge Assessments assess your ability (but not limited to) to recall information, comprehend information, research information, communicate through written media or demonstrate computer skills

### Projects

Your trainer may give you a project to do that groups several units together. The project can be a combination of Knowledge Assessment and Competency Based Training

## APPEALING ASSESSMENTS/ACADEMIC RESULTS

### Assessment Appeals Policy

All Students have the right to appeal assessment outcomes. They must do so within seven (7) days of the notification of an assessment result. Appeals must be in writing. Students can ask their Trainer or

request to speak with the Operations Manager RTO to discuss how the Appeals Process works otherwise see below for the how to “Lodge an Appeal”.

### Lodging an Appeal

- Students lodge a written appeal to the Trainer within seven (7) days of notification of the assessment outcome. May be submitted via email to Operations Manager RTO
- The Trainer discusses the grievance with the student, and informs the Student of the decision both verbally and in writing.
- If the Student is unsatisfied with the decision, then an appeal may be lodged with the Operations Manager RTO in writing.
- The Student may be reassessed by a second Trainer based on the decision of the Operations Manager RTO. The decision and reassessment outcome is recorded in writing and is considered to be the final result.
- If the Student considers that the appeals process was unsatisfactory, they may contact the appropriate funding authority to discuss the assessment outcome. LEAD will provide details of that contact.

### Appealing Academic Results

The Student is issued with a Unofficial Transcript (results) on the final day of their training program. The Student has a period of thirty (30) days from the last official date of their course to appeal their results before the Student receives their Qualification or Statement of Attainment. If the student wishes to appeal they should follow the “Lodging an Appeal” process

## COURSE MATERIAL

LEAD utilises two (2) types of course material hard copy (books) or on-line (through e-learning). To use on-line courseware you need access to a computer with internet and PDF access

All students will be issued with Work Health and Safety unit, if this is in their Training Plan, as their first unit to achieve.

Once your first unit is complete you are able to request the unit you would like next

## QUALIFICATIONS ISSUED

### Qualification

A qualification is issued when the Student has completed all requirements for assessment as listed in the current training plan.

### Statement of Attainment

A Statement of Attainment is issued where students have only partially completed the requirements for qualification. This may be issued for the following reason:

- The student does not complete the full requirements for the qualification; or
- A package of units has been delivered from an accredited and registered program.

The code and title of all units successfully completed by the student are listed on the Statement of Attainment.

### Receiving your Certificate/Statement of Attainment

Your Certificate or Statement of Attainment will be printed 28 days after your successful completion of your training program. You can pick up your Certificate or Statement of Attainment from LEAD office, 54 Marcus Clark Street, Level 3, Canberra City Act 2600. You can opt to have your Qualification/Statement of Attainment mailed to your registered postal address. If qualifications are not picked up within 2 weeks of the printed date they will be mailed to your registered postal address.

### Change of Address/Contact Details

## RESUBMISSION OF UNITS

Students from time to time will be asked to resubmit some course work. At this time their Trainer will provide them with guidance on what has occurred and how they can provide a more well-rounded response.

For each unit you have three (3) submissions available to you. If your trainer returns a unit to a Student which requires changes, your trainer will provide you with information regarding why the unit is not yet competent.

If it is returned again for a **fourth time** and is found not yet competent then the trainer will take the following course of action:

- You will be given a new unit to do and be found Not Yet Competent in the submitted unit (this will be at no cost to you for the first submission)
- If the unit is a core unit then you will be given a new set of assessments to demonstrate the elements by the trainer but you will not be able to repeat the previous assessments (this will be at no cost to you for the first submission)
- You will be reviewed for your suitability to continue in the current training package at the current level. LEAD will **endeavour** to match you to a more suitable program for your learning needs at the time. You have the right of appeal if you disagree with the outcome.

The initial enrolment component of the course will be held by LEAD and the refund portion will apply to the remainder of payments made. Pro-rata refunds will be provided [Total Agreed Payments multiplied by the percentage of units completed];
- The Operations Manager RTO is of the opinion that the student would be unreasonably disadvantaged if a refund was not granted, for example if a student met with a serious misadventure and was unable to continue with the enrolment;

Where refunds have been approved for reimbursement, a cheque is raised or EFT payment processed by LEAD Financial Administration and issued to the student or employer within 21 days of the refund being approved by the Operations Manager RTO

## FEEDBACK AND QUALITY IMPROVEMENT

LEAD Disability Services collects data regularly to monitor, manage and achieve continuous improvement in the delivery and assessment of its training programs. We value and welcome constructive feedback from all stakeholders regarding any aspect of our services.

Evaluation forms are distributed to students at various stages throughout their course including a government driven "Learner Questionnaire" which is distributed to students throughout the duration of your training program. Your cooperation in completing this questionnaire is appreciated.

Students wishing to provide management with feedback on any issues, concerns or areas for improvement are encouraged to email Operations Manager RTO on [jmcdonald@lead.asn.au](mailto:jmcdonald@lead.asn.au). We welcome feedback at any point during or after your training. Your feedback counts. Your response will help shape important decisions in our Organisation. The feedback will provide data that assists us to enhance the quality of education and training.
